

FEATURES

- This compact passive generator, equipped with Bridgelux LEDs with a CRI greater than 97, has a higher light output than a 100W halogen generator.
- Its 30mm port accepts all Luxam fiber bundles and allows it to be fitted to existing installations.
- Dims from 100% to black with its potentiometer dimmer.

TECHNICAL DATA

Fiber Optic Port	30mm	Expected LED Life	50 000 hours
Voltage	110-220 V	Operating Temperature:	+5 < T _a < +40°C
CRI	98 - 3000K , 90 - 4000K	Dimensions:	191 x 162 x 96mm
Dimming	Potentiometer / 0-10V external signal	Weight:	1.25kg
Color Temperature	3000K, 4000K
